

Regarding K-Love Radio station:

This station serves my community and myself by providing a positive and encouraging message of hope and faith throughout the day. No other station exists solely for the benefit of its listeners. They recently called my household to see if there was anything we needed after the storms that hit Florida. They also asked if they could pray for us. What a service to our community! Please do not displace K-Love by an LPFM broadcaster or other programs.

Sincerely,

Lisa Hermann
